

Laser Cutter settings to remember!

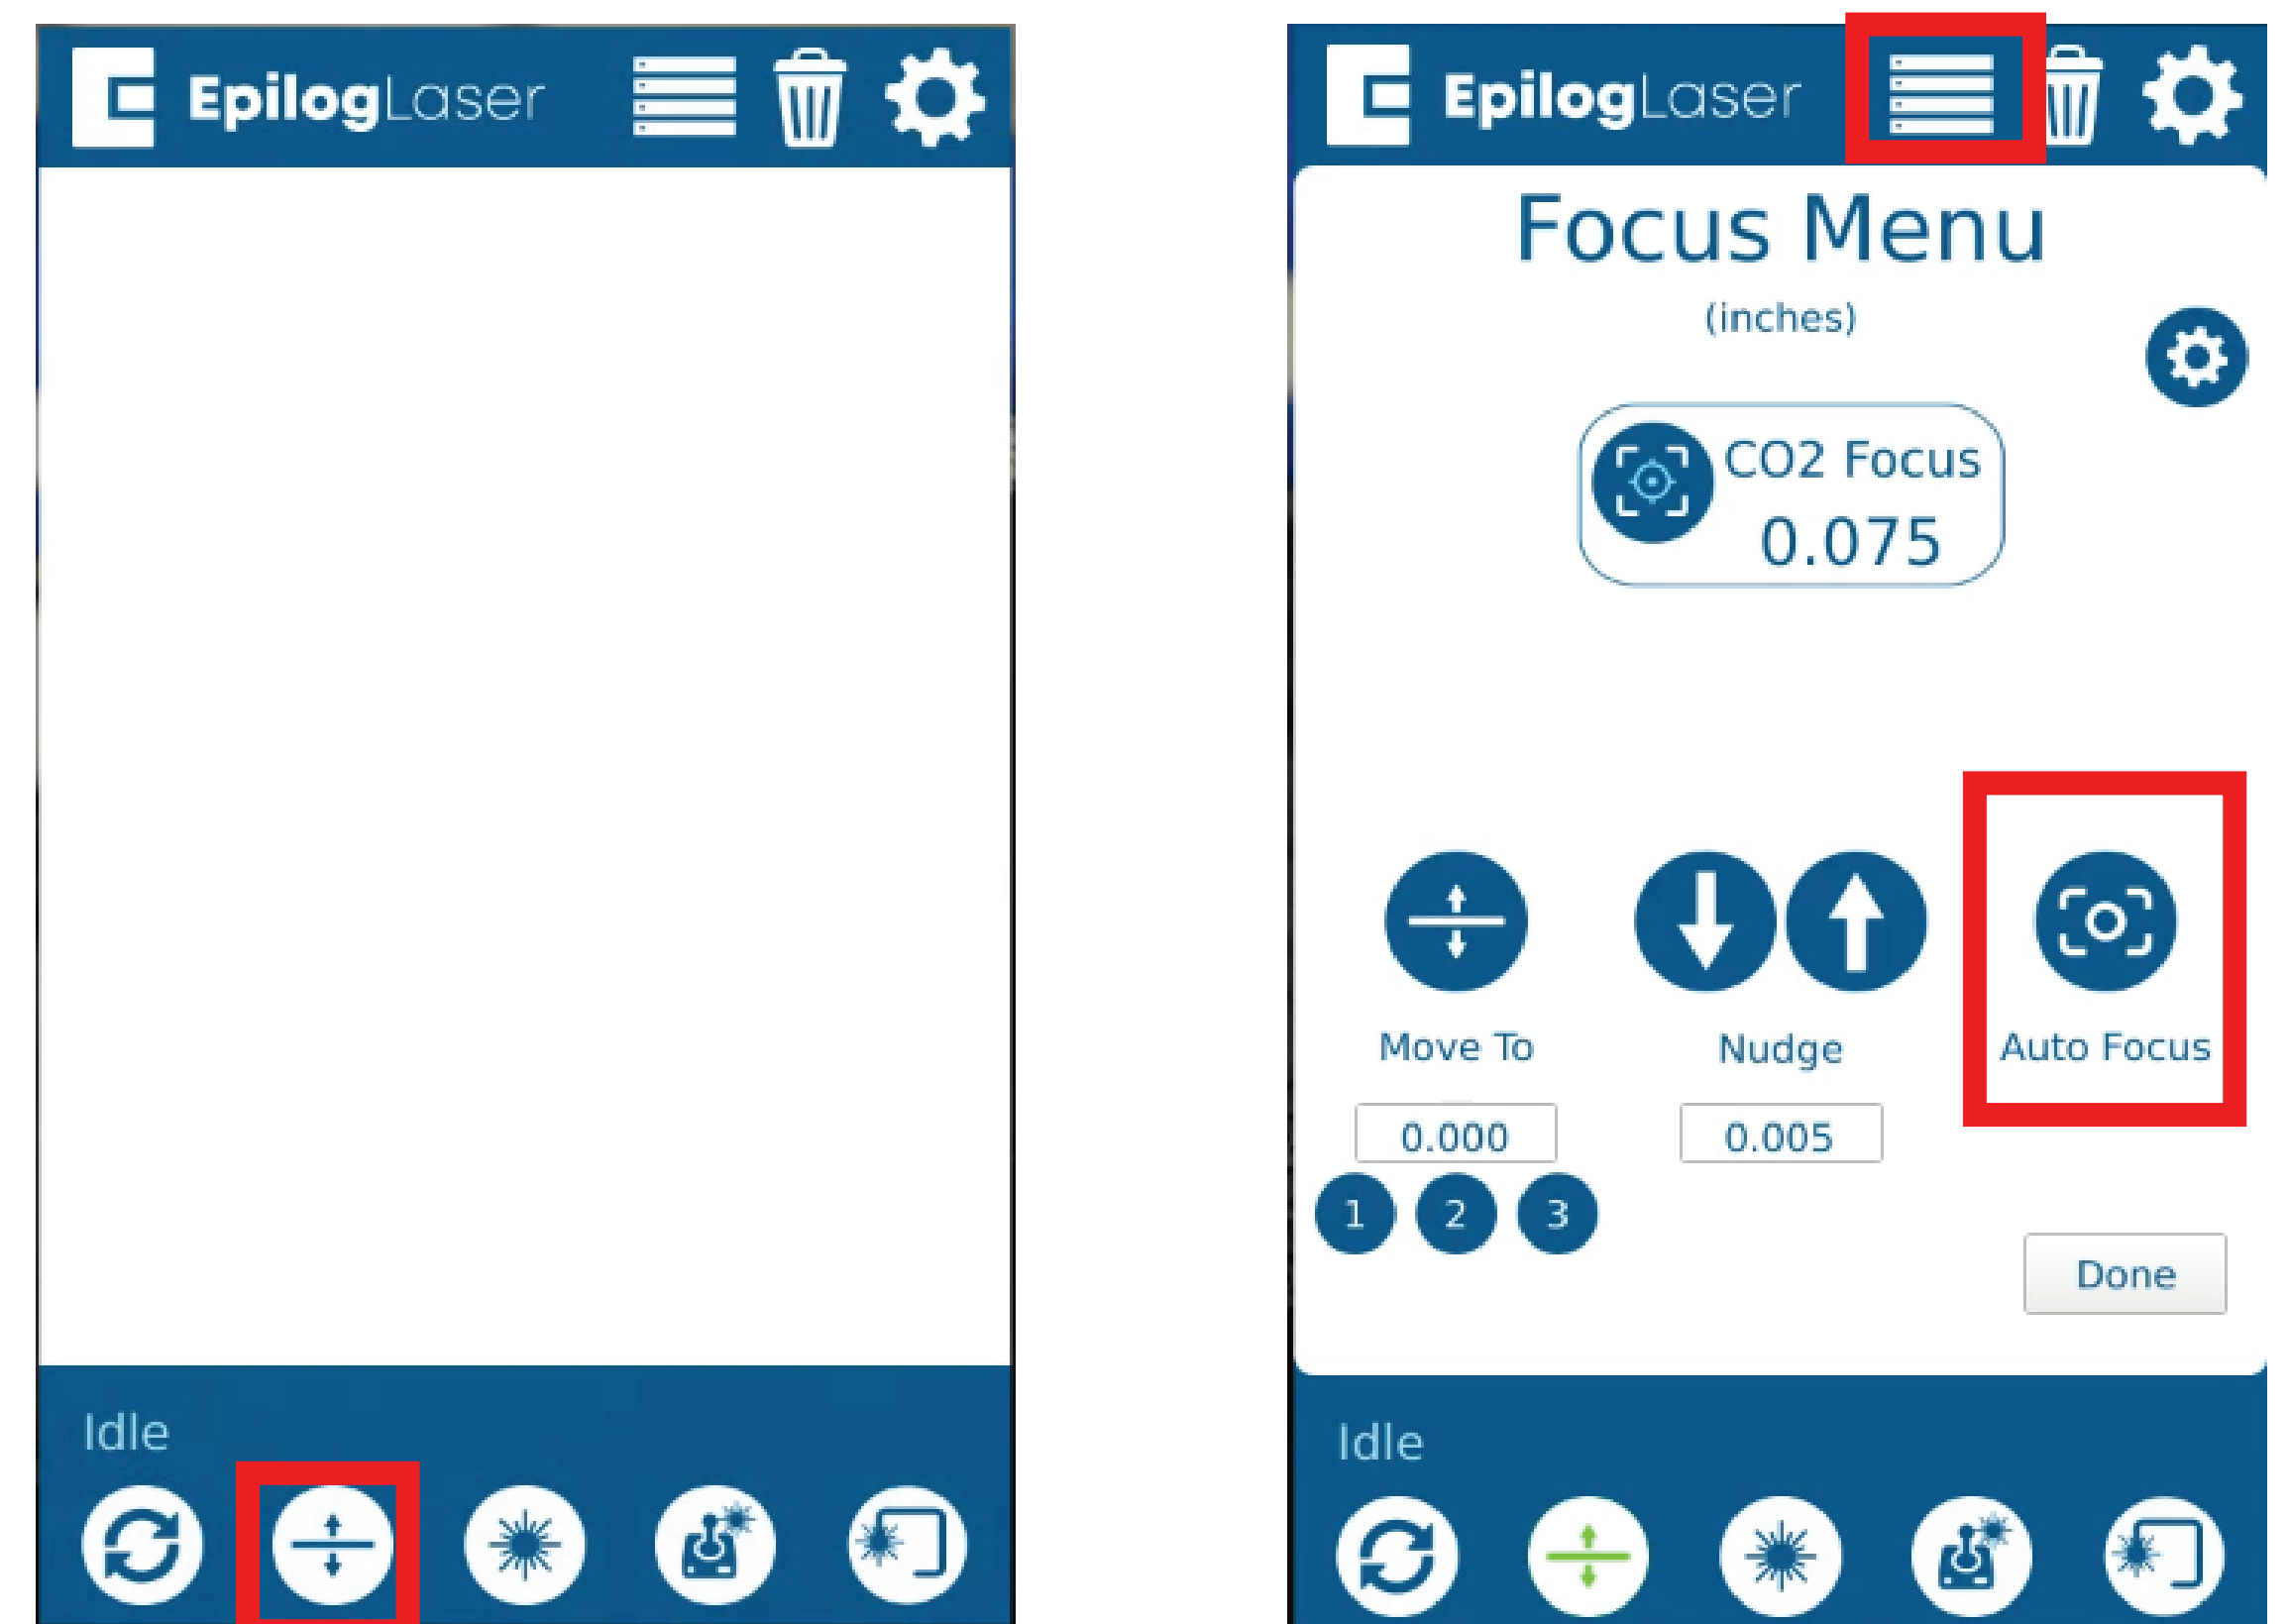

Bed Leveling

Place your material into the laser and Auto Focus your laser before sending any job over!

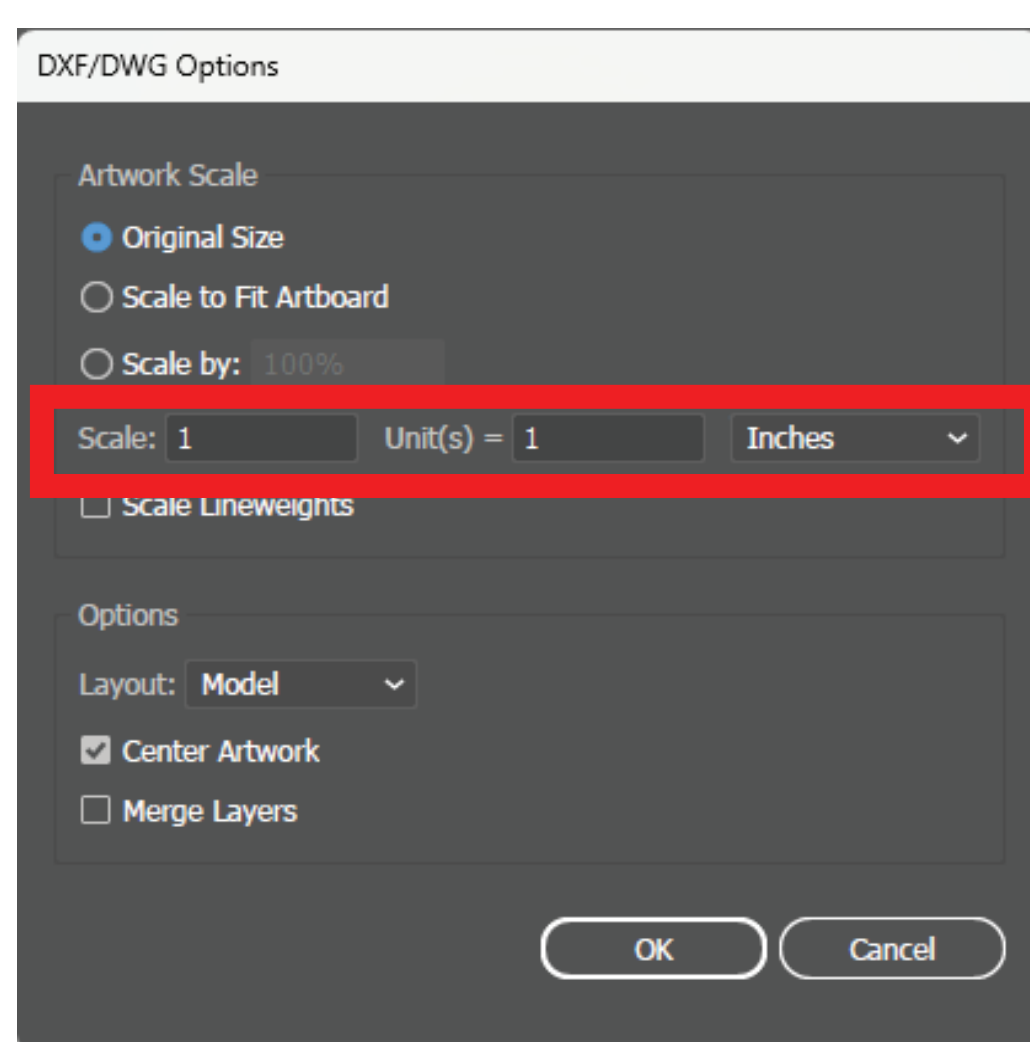

Select Focus Menu on the Control Panel and select Auto Focus.

To return back to the Main Menu
Select the Four bars at the top of the screen.

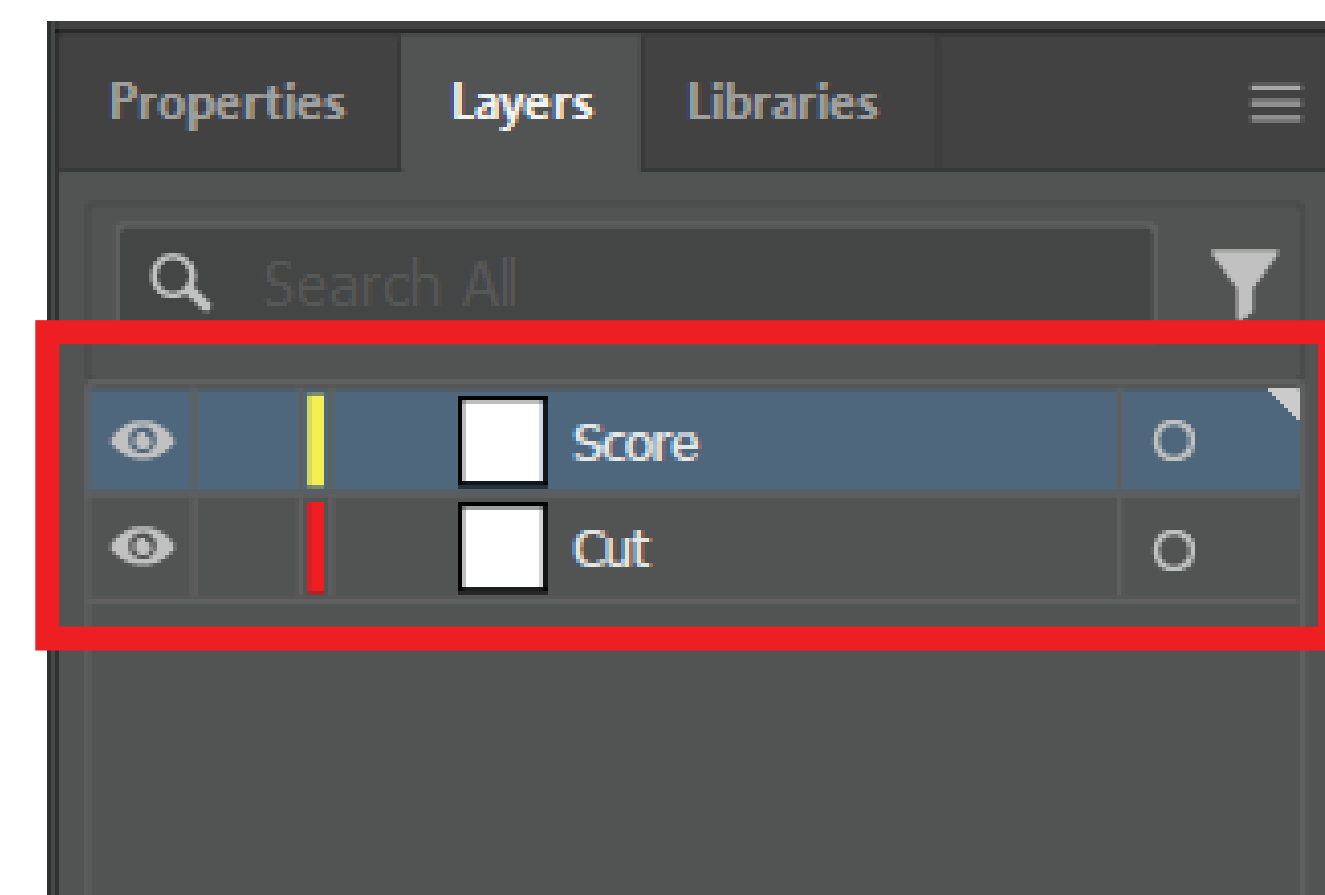

Illustrator File Prep

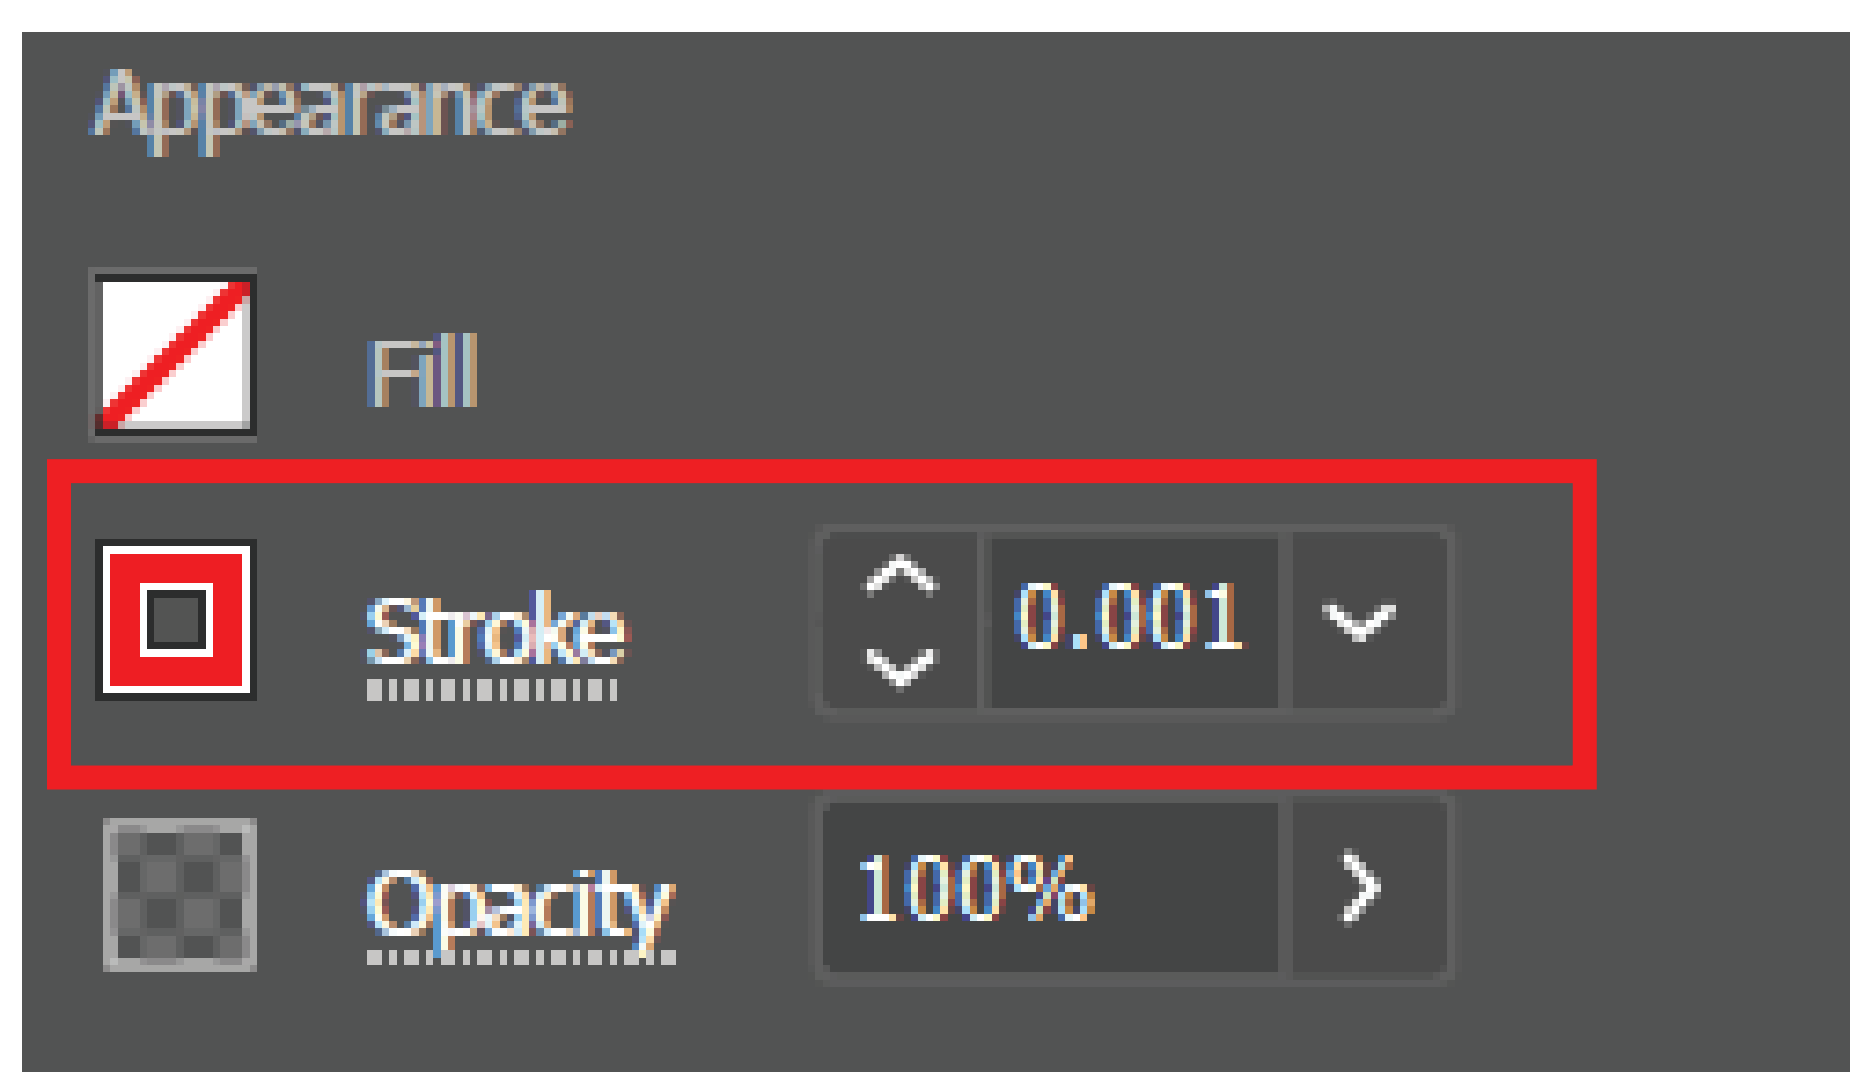

Settings when opening a .DWG file in Illustrator.
Original Size -> Scale 1-> Units 1-> Inches

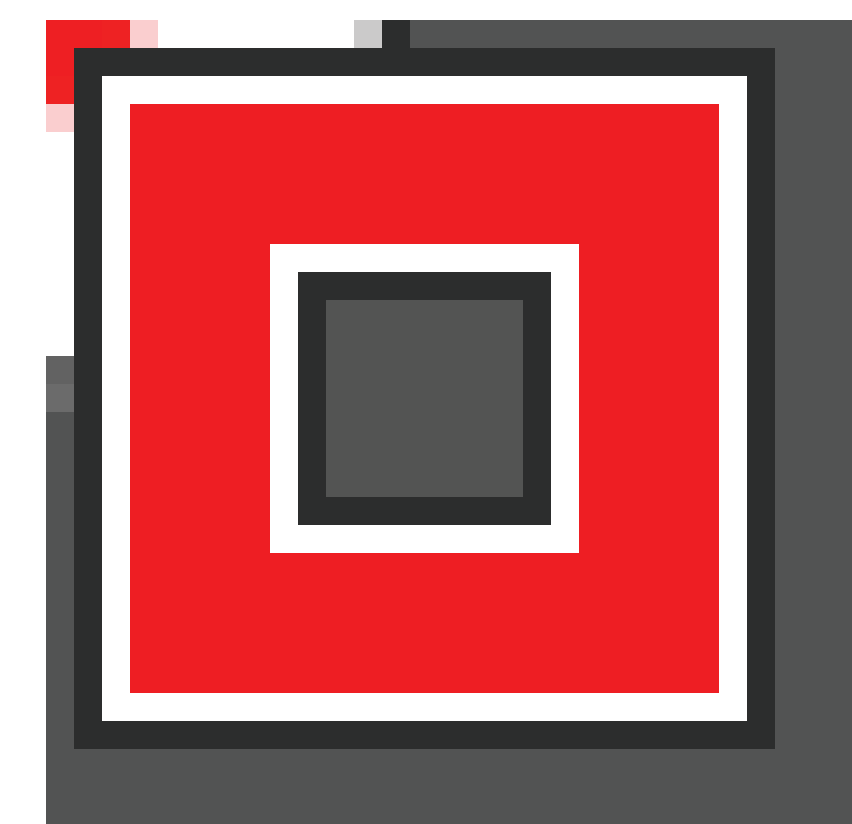

To help keep yourself organized, keep your Cut lines in the Cut layer and Score lines in the Score layer.

Make sure all lines are set to 0.001 under Stroke.

Have your Cut and Score lines set to different colors for color mapping. This is done using the Stroke Icon

Epilog Dashboard

Turn on these settings before doing anything else in the Epilog Dashboard.

Turn Air Assist on. Air Assist Off On

Split By Color Split by: Color

Import your Cut and Score material settings by selecting the Import Folder at the top of your settings menu.
